JENDRICK A. CONICONDE

BSIT Student | UI Design, Web Development & QA
Metro Manila, Philippines | conicondejendrick@gmail.com
github.com/jendrickcon | linkedin.com/in/jendrickcon

BSIT student and academic project team lead interested in UI/UX, web development and QA. Project experience includes interface refinement, workflow testing, AI-assisted development and Azure VM/IIS deployment.

EDUCATION

Universidad de Manila | BS Information Technology | August 2023-Present
486 OJT hours | Available early December 2026 | Hybrid or on-site, Metro Manila

TECHNICAL SKILLS

Interface and testing: UI layout, user flows, functional/UI testing, role-based workflow checks
Foundations: HTML, CSS, JavaScript, Python, PHP, SQL, OOP fundamentals
Project tools: Django, Next.js, TypeScript, MySQL, Airtable, Firebase (Cloud Firestore)
Deployment and workflow: Azure VM, IIS, Git/GitHub, prompt engineering, AI-assisted development

SELECTED PROJECTS

UDM-RADAR | Project Leader · Academic Team Project - Interface Development and QA
PHP, MySQL, HTML, CSS, JavaScript | github.com/jendrickcon/udm-radar

- Coordinated academic project tasks and interface work for Student, Faculty and Administrator portals in a PHP/MySQL system.
- Refined academic-record and analytics interfaces; checked role-based workflows, identified issues and validated fixes with AI-assisted testing.

Mini PCS | Production Workflow PWA - Practical Assessment
Next.js, TypeScript, Airtable

- Built a worker-facing PWA with AI assistance, connecting a Next.js/TypeScript interface to Airtable to display batches and update eligible tasks.
- Guided mobile and desktop layout changes, clearer task-status labels and contextual help; reviewed interface behavior at phone widths.

StudyQuest | Lead Developer · Team Project
Django, HTML, CSS, JavaScript | github.com/zap1104/studyquest

- Contributed Django-template interfaces for course creation, assessments and learner progress using HTML, CSS and JavaScript.
- Refined processing and navigation states; contributed AI-assisted tests for access controls, course ownership and draft removal.

Personal Portfolio | Cloud Deployment

- Configured an Azure Windows VM and IIS for portfolio hosting; used Firebase Cloud Firestore for application data.

RELEVANT EXPERIENCE

Internet Cafe Administrator | Family-Owned Internet Cafe | June-December 2024

- Maintained computers, software and basic connectivity; handled updates and troubleshooting.

Graphic Designer | Pru Life UK | February-March 2023

- Created and edited digital promotional materials according to organizational requirements.

CERTIFICATIONS AND ACHIEVEMENTS

TESDA National Certificate II - Computer Systems Servicing
AWS Training & Certification - Foundations of Prompt Engineering | Course completion, October 2026
Academic Distinction - Universidad de Manila, Senior High School and College Years 1-3
University of Makati IT Skills Olympics 2026 - Python Category Participant · November 2026
